Subject: Request for Operation Hemisphere DARTS/NSG Subpoena Access List

Reference is made to Assistant Administrator Craig's e-mail below re: Operation Hemisphere. Since that e-mail was transmitted, Hemisphere has come on line at the Atlanta HIDTA, and the HIDTAs have generally established that DEA Hemisphere requests should be passed to the local HIDTA which will then forward the request to the appropriate Hemisphere HIDTA (Atlanta, Houston, or LA).

Also, DARTS/National Subpoena Generator (NSG) now has a separate tab, labeled "ATT-H", for the Operation Hemisphere subpoena (which has language approved by Chief Counsel). *However*, this tab is only made visible to those designated by their field division to have the authority to initiate Hemisphere subpoenas. In order to facilitate access to the NSG Hemisphere subpoena for your office, please forward me a list of those individuals that your field division would like to have the ability to generate Hemisphere subpoenas, and we will provide them access to the "ATT-H" tab. While there is no specific limit, the FDs that have already forwarded lists have kept their list to about 20 people to keep the program manageable and not overwhelm the Hemisphere staff.

I realize there continue to be plenty of questions on Hemisphere - Please call me at [redacted] with any questions or requests for more info, etc.

See most of you next week - Thanks,

[redacted] (b)(6);(b)(7)(C)

Hemisphere Program Articles & Scrutiny

Task Force Commanders / Initiative Managers,

By now you have undoubtedly heard, seen, or read some if not all of the articles published about the Hemisphere Project ... If not here they are:

<http://www.nytimes.com/2013/09/02/us/drug-agents-use-vast-phone-trove-eclipsing-nsas.html?ref=global-home&r=0>

<http://www.foxnews.com/politics/2013/09/02/drug-agents-reportedly-have-access-to-bigger-phone-database-than-nsa/>

<http://nyti.ms/17xlipO>

<http://security.blogs.cnn.com/2013/09/02/dea-program-linked-to-vast-att-database-documents-show/>

<http://www.theguardian.com/world/2013/sep/02/nsa-dea-at-t-call-records-access>

http://news.cnet.com/8301-13578_3-57600982-38/dea-supplied-with-access-to-vast-database-of-at-t-phone-records/

[http://www.techmeme.com/130901/p17?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+SmithMarketwatchIndustryNews+\(Smith+MarketWatch+Industry+News\)](http://www.techmeme.com/130901/p17?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+SmithMarketwatchIndustryNews+(Smith+MarketWatch+Industry+News))

<http://rt.com/usa/at&t-phone-surveillance-dea-325/>

Although we'll discuss in depth at the upcoming LA-HIDTA Supervisor's Training / Meeting following our LA-HIDTA Executive Board Meeting, but let me offer some points to ponder ...

IF HIDTA in general decides to put out some edict to not allow your agents/detectives to utilize this "tool" it would give the impression to the "common man" ...jury standards... that we collectively did something WRONG ... which as we all know is the furthest from the truth.

Hemi is nothing more than AT&T's "Super Search Engine" ... "Google on Steroids" as it were ... A software record search system developed to reach into AT&T's numerous stove-piped databases; coupled with Analysts who knows what we (law enforcement) is asking for as well how to interpret their confusing raw record data once retrieved ... And all is done through legally approved documents (Admin Subpoena for Feds, Court Orders by State/Locals). That's it ... Nothing more, nothing less ... Period.

Additionally, from a legal perspective ... this system was scrutinized by Corporate Attorneys, Local, State and Federal Prosecutors, US DOJ, FBI and DEA General Counsel Attorneys, and Judges as well ... ALL OF WHOM concur that Hemi is a legal tool ... and nothing MORE than just a "tool."

As far as "keeping it a secret" per se (an issue raised in the articles based on one of the slides) ... Our rationale has been simple and truly hasn't changed since the beginning of Sir Robert Peel and the origins of today's "Modern Day Law Enforcement" ... we were attempting to NOT educate the Cartel Attorneys et al on the systems and practices we law enforcement professionals legally have available at our disposal (Key word LEGALLY!)

The article "likenes" the Hemisphere Project with the NSA Project ... In short, they're apples & oranges. To access Hemisphere a law enforcement officer/agent must have PC specific to their search request, then must provide either a Federal Admin Subpoena or have a judge sign a Court Order in the case of state/local investigators. This is in total contrast to the blanket Patriot Act search methods used by NSA.

Thanks again for your understanding, and I hope this helps you better explain to the unknowing who may be inquiring.

Subject: LA HIDTA Supervisor Training

As many of you know, we have been talking about having a training day for all LA HIDTA Initiative Group Supervisors/Sergeants and second-line supervisors. We have arranged to utilize the Ontario Police Department Community Room on Thursday September 26, 2013 from 2:00 p.m. to 4:00 p.m. to conduct the training. The topics will include an overview of LACLEAR's de-confliction capabilities, intel/analysis services offered by LACLEAR, INCH and JRIC and a presentation on Hemisphere. After the training, we will have a BBQ (beef, chicken, rice, beans and beverages) at an OPD off-site. The purpose of the BBQ is for everyone to put a "face to a name" and enhance our working relationships. We anticipate the cost of the BBQ to be approximately \$15 per person.

Initiative Commanders – Please provide me the total number of individuals from you initiative who will be attending this event. Also, please collect the funds from your personnel prior to the event and give to me at the September 13 breakfast.

Note: September 26, 2013 is also the same date as the Executive Board meeting. The Executive Board meeting is from 10:00 a.m. to 11:30 a.m.

If you have any questions please call me at the numbers below, email me or bring up at Friday's breakfast. Thanks

Steven S. Woodland

I think it's a good resource to turn to when all other methods have failed, so yes, continue the funding.

But I would want to know of the 50 submissions, how many were DEA because many may have been initiated by the HIDTA ISC analysts in support of a state or local case. Can we also have NC-HIDTA assist with the funding?

To: Goldberg, Bruce E.
Subject: RE: Operation Hemisphere Funding

Operation Hemisphere was initiated after 9/11 and is the name of an AT&T pointing mechanism to give the requestor telephonic information that crosses through AT&T towers/switches. When all other means are exhausted in trying to locate a replacement number, a Hemisphere request may be submitted. Similar to ETS information, Hemisphere information is not to be used in 6s, affidavits, etc.

When such information is needed, the requestor submits a special subpoena issued to AT&T and send it to the Op. Hemisphere POC, who then forwards it to the Hemisphere representative in Los Angeles. The response often determines whether or not the agent or analyst will perform a parallel construction.

For Northern California, Operation Hemisphere is handled by the NC-HIDTA ISC and they may have the financial records.

(b)(6);(b)(7)(C)

Requests from DEA and other agencies (federal, state, and local) in Northern California are submitted to the NC-HIDTA ISC POC [redacted], and he then forwards the request to the Los Angeles Op. Hemisphere representative for processing. ISC does introductory training regarding Operation Hemisphere throughout Northern California so it's possible there were some DEA SFFD requests.

I'll check with [redacted] about this. (b)(6);(b)(7)(C)

Subject: Operation Hemisphere Funding

Bruce. I left a v/m on your phone Wednesday afternoon concerning Operation Hemisphere. If you are not familiar with Hemisphere I'll provide details in another email or via telcon. In short, we are asking each of the W/C divisions as well as the Phoenix Division to transfer funds to the LA Division to assist in paying for the final two weeks on the 2012-2013 ATT Hemisphere contract. The attached spreadsheet shows that San Fran's share would be \$1,683 based on historical usage. We can't tell if the numbers referenced on the spread sheet I sent earlier are Hemisphere queries made directly by DEA but we are linking the divisions with the HIDTAs operating in their AORs with the thought that DEA SAs/TFOs are involved with or provide support to these same HIDTA initiatives. Let me know if you need more information. Please let me know by June 10 if the division can transfer the funds or put me in contact with the ASAC who oversees the Admin/Fiscal unit. Thank you.

Subject: Hemisphere subpoenas

This notice is being sent to clarify procedures for all those that utilize admin subpoenas in the AT&T Hemisphere project (formerly known as "Hudson Hawk" or "Hawk"). First, every subpoena that is sent to AT&T must have the attachment when it is sent from our office. That means if we are faxing the subpoena then the attachment (sometimes referred to as the "rider") must be faxed as well. It is legally insufficient for us to reference an attachment and then not send it with the subpoena. Second, in order to have consistent practice among the agencies that use the project, we are to use the attached riders. The first attachment (Hemisphere subpoena attachment) will be used with most of our subpoenas and does not include the "calling circle" or "community of interest" language. The second attachment (Hemisphere dropped phone search) should only be

An issue may be arising so I would like clarification if you can help. AT&T is requesting that a justification be put on a second form that they want along with the subpoena. In the training the I/As received in Houston they have been instructed to include what type of drug investigation it is. I do not think AT&T has a right to that information and should not ask for it. I have instructed the I/As not to include it. I do not know if AT&T will raise any issue or not but I if you can determine for me if AT&T has a right to that information would be a big help. If I don't speak to you before Thursday have a great Turkey day. Thank you for your help.
