Pe [Redacted] (NSLB unit), Julie F. Thomas is the only one authorized to sign off on NSL's; therefore, her name should also be on the attention line. The NSL pony reflects this newest change.

Following our meeting regarding the NSL database development, I saw a demonstration of the Microsoft Access version of the database that [Redacted] has created. While I understand it is still in development and it is not fully tested at this point, I believe it is in a state where it could be used very effectively by the CTD/CXS units to track NSL requests and generate ECs requesting authorization for such NSLs.

I'd like to request a time that [Redacted] can come to HQ to show CTD/CXS the (S) database and let them exercise it for NSLs being generated [Redacted] data provided by [Redacted]. Please have [Redacted] contact me with a time that would be convenient for [Redacted] to permit his visit to FBIHQ.

Thanks,
