[REDACTED] Valerie wanted to set up a meeting with Charlie Phalen, the head of the security Division, sometime today at a time that I could make it. I have an optional meeting at DOJ today at 2, so I could make any meeting before then (I'd leave maybe an hour for the meeting). I cannot do it after the 2 meeting, but if nothing else works out, I can probably miss the DOJ meeting and do the meeting with Charlie at 2 or 2:30. I'd need to leave headquarters by 3:20 or so.

If you could work out a meeting today, that would be great. I could also come downtown tomorrow, if need be.

thanks. [REDACTED]

<< File: NSL Delegations REVISED MARCH 9, 2006 TA .wpd >>

Since the USA Patriot Improvement and Reauthorization Act was renewed and signed by the President yesterday, we had to change guidance on several matters, including on National Security Letters (NSLs).

I attach the new NSL signature delegations signed by Director Mueller yesterday and uploaded. As of yesterday, the attached delegations apply. Please note that no one lower than a DAD at FBIHQ can now sign an NSL.

We will be sending you more guidance in the future.

Julie,

when today can we have a premeet about NSL data? We may need [redacted]  
[redacted] and anyone else who can shed light on where we can point  
the IG to get answers to the questions Congress wants answered: how do we use NSLs,  
what happens to the data, is there any misuse (I assume they are going to do a random  
sampling -- but maybe not) how is the data disseminated [redacted]

[redacted]  
[redacted] One thing they have already asked for (we should actually  
route the response through INSD who is the point of document control) is all the  
semi-annual reports from 2002 to the present.

Yesterday's witness, Jim Dempsey, referenced the attached EC during yesterday's SSCI hearing. Of course, he was not clear about what this document is or what it is intended to do. Valerie should be familiar with this EC and the related EC guidance that went to the field on NSLs in this time frame - I think there are 3 on the NSLB webpage. Thanks,

THE FBI'S USE OF NATIONAL SECURITY LETTERS (NSLs) PURSUANT 18 U.S.C. §2709 (a), AS AMENDED, TO OBTAIN ACCESS TO CERTAIN COMMUNICATION SERVICE PROVIDER RECORDS

Any reports, studies, evaluations, analyses, or surveys created by the FBI or on its behalf evaluating the effectiveness of this type of NSL as an investigative tool, including data or evaluations of the following:

- the importance of the information acquired by the Department of Justice to the intelligence activities of the Department of Justice or to any other department or agency of the Federal Government;
- the manner in which information acquired is collected, retained, analyzed, and disseminated by the Department of Justice including any access to this information, including "raw take" or "raw data," provided to any other Department, agency, or instrumentality of Federal, State, local, or tribal governments, or to any private sector entity;
- whether and how often the Department of Justice utilized acquired information to produce an analytical intelligence product for distribution within the Department of Justice, to the intelligence community, or to other Federal, state, local, or tribal government Departments, agencies, or instrumentalities; and
- whether and how often the Department of Justice provided acquired information to law enforcement authorities for use in criminal proceedings (providing investigative case numbers and contact information in each instance)

ITEM #6 A list of all intelligence products generated by the FBI during CYS 2003, 2004 and 2005, which were based on information obtained through national security letters, including but not limited to Intelligence Information Reports (IIRs), intelligence bulletins, and intelligence assessments. For each intelligence product, provide (1) the intelligence product; (2) information identifying whether and to whom it was distributed within the Department of Justice, the intelligence community, or to other Federal, state, local, or tribal government Departments, agencies, or instrumentalities; and (3) a list of all databases which would reference whether such information was distributed outside the Department of Justice.

A meeting is being planned for Wednesday, July 12, 2006 to discuss those portions of the numerous OIG requests, on the above captioned matter, which remain to be complied with by the FBI. Attached is a chart which lists, to the best of my knowledge, those portions of the numerous OIG requests which remain.

It appears that several of the remaining portions a) do not exist or do not exist in the format which the OIG expects them to be in or b) are not retrievable in any well organized format or are not retrievable without a heavy burden placed upon the FBI entity or unit which has been tasked with the retrieving of the information. We need to insure that all avenues of research have been undertaken or whether a new strategy is necessary. Additionally, I believe if a remaining item is not in existence that it would be incumbent upon the FBI to craft a such response to the OIG. But first we need to fully ascertain whether we have explored all viable avenues in our research and reviews and whether such a statement would be accurate.

SRRU feels that your division's attendance would be most helpful in analyzing and constructing an accurate response to the OIG for the remaining items. A

StatusMtgRemainingPortionsofOIG ReqPATRIOTACT.txt  
representative from your divisions would allow for a full discussion of the issues remaining. This meeting will be attended by personnel from Inspection and OGC. The meeting is tentatively scheduled for 1:00 PM in Room 1B224 (SRRU) on Wednesday.

Please let me know if a representative can attend this meeting or if an alternative time or day would be more convenient for you.

Thank you for your assistance in this matter.
